RESEARCH STUDENTS SUPERVISED

Cooper Doyle, The University of Sydney <i>Master's of Data Science Thesis: Automatic Detection of Exoplanetary Transits in Hot Stars</i>	2020
Louis Desdoigts, The University of Sydney <i>Physics Honour's Thesis: Diffractive Photometry & Differentiable Optics</i>	2020
Amalie Stokholm, Aarhus University <i>Physics Bachelor's Thesis: Interferometric and Asteroseismic Analysis of the Subgiant HD 181096</i>	2015-16

In addition to supervising the above students for projects that produced theses, I have also supervised the research projects of many undergraduate students. At the University of Sydney, these students have done projects either individually, as part of the Physics Special Studies Program (SSP), or as a group through the unit SCDL1991: Science Dalzell Showcase. The Dalzell Scholars stream is open to high-achieving students from all faculties. Over the last 3 years I have supervised 9 SSP students, and 24 Dalzell students in 4 groups.
